How do we Manage the ILLiad Workflow for our patrons during a temporary closure?

Last updated: Wed, 15 Sep 2021 21:35:14 GMT

Symptom

• You want to limit what your patrons can do in the ILLiad Services

Applies to

• ILLiad

Resolution

Here are some steps you can take to limit what patrons can do in ILLiad:

2. You could also comment out your include_menu.html web page so patrons can see a message you have or if you want to limit only to articles, you comment out everything else.

3. Go [here](https://help.oclc.org/Resource_Sharing/ILLiad/Troubleshooting/How_do_we_Manage_the_ILLiad_Workflow_for_o...) to see a list of temporary closure procedures for more of OCLC's products.
