Learn how to request items from libraries outside UnityUK.
Sites outside of UnityUK, or using UnityUK only for searching, will receive requests placed in UnityUK via email.

The email sent to the potential supplier contains 3 HTTP hyperlinks which the potential supplier should click on to indicate how they are handling the request:

- Our BL Account No. is: 87-0160
- Our UnityUK reference is: 202455
- Cost Scheme: CONAR - Conarls

If you are unable to supply, please contact us as soon as possible or update the request by clicking on the link below:

Many thanks in anticipation

Reference source: UnityUK catalogue/tcr
Shelf mark:
Notes:

----------------------------------------------------------------

Our UnityUK reference is: 202455
Our Local Request No. is:
Requester Billing Address
Once an item has been received, the requester should record the receipt of an item in UnityUK.

If the responder indicates by email or phone, that they will/will not supply the item, instead of clicking on the link in the message from UnityUK, the requester will need to modify the request to indicate that the responder could not supply, whereupon UnityUK will send the request to the next location in the rota (see Renew a requested item).
