Learn how to use Relais ILL with OCLC WorldCat. Relais ILL can be used to search OCLC WorldCat and send requests to OCLC WorldCat Resource Sharing as well as receive requests from OCLC.

Relais interoperates with OCLC in two ways.

- Sending and receiving requests and related messages is handled by the ILL Message Handler via ISO ILL TCP/IP. Note that in most other cases ISO communication is handled via email (=SMTP).
- Searching OCLC WorldCat is done via Z39.50.

Please note you can enable either requesting only or supplying only. Be sure to let OCLC know your preference so that it is configured correctly in OCLC.

Prepare to use OCLC WorldCat with Relais

Note: Please ensure all the following steps are completed.

Step 1.

If you haven’t already done so, register with OCLC to use OCLC WorldCat Resource Sharing / OCLC WorldShare ILL. OCLC will send an authorization and password. Once you have received this information, set up your defaults and constant data for borrowing and lending and enter your policy information in OCLC.

Step 2. Update your home library record (OCLC info section)

1. Login to Library Registration.
2. Retrieve your home library record.
3. Click Statistics.
4. Enter the information as described in the following table.
5. Click Update.
### OCLC Symbol

Enter your OCLC symbol as assigned by OCLC.

### User ID

Enter your authorization number as assigned by OCLC. Hyphens can be included but are not required. For example 100149553 and 100-149-553 are both acceptable.

### Password

Enter your password as assigned by OCLC.

### Confirm

Enter your password again.

### Service Type

Specify your preference for sending request to OCLC.

There are 3 options from which to choose:

- **Direct to Lender.** Staff creates an OCLC lender string. This lender string is passed to OCLC as part of the request and the request is sent to each lender in turn.
- **Direct to Profile.** Staff does not create an OCLC lender string. The request is sent to OCLC

<td></td>
<td>Irrespective of what is set in the home library record, the use of IFM can be changed on a request by request basis.</td>
</tr>
<tr>
<td>IFM Max in US$</td>
<td></td>
<td>If Use IFM is set to Yes, specify the maximum amount (in US$) to include in requests sent to OCLC.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Irrespective of what is set in the home library record, the amount can be changed on a request by request basis.</td>
</tr>
</tbody>
</table>
Step 3. Update the OCLC supplier record

1. Login to Library Registration (or Supplier Registration).
2. Retrieve the OCLC supplier record. (If no OCLC supplier record exists contact support)
3. Update the information as described in the following table.
4. Click Update.
5. Click Connection.
6. Enter the information as described in the following table.
7. Click Ok.

Step 4. Add a copyright statement to be included on all requests sent to OCLC.

1. Login to Library Registration (or Supplier Registration).
2. Retrieve the OCLC supplier record. (If no OCLC supplier record exists contact support).
3. Click Copyright Statement (lower right of screen).
4. In the Copyright Statement box, enter Copyright Compliance: CCL or CCG.
5. Click Ok.

Step 5. Configure OCLC WorldCat as a searchable catalogue

1. Login to Administer Settings.
2. Select the Catalog Configuration tab.
3. Highlight WorldCat in the list of Catalogs. If WorldCat does not display as an option contact support.
4. Enter the information as described in the following table.
5. Click Update.
<table>
<thead>
<tr>
<th>FIELD</th>
<th>CHARACTERS</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Host Name</td>
<td></td>
<td>Enter the Z39.50 address for WorldCat (via First Search).</td>
</tr>
<tr>
<td>Port</td>
<td></td>
<td>Enter 210, the Z39.50 port number.</td>
</tr>
<tr>

</tr>
<tr>
<td>Confirm Password</td>
<td></td>
<td>Re-enter your password as assigned by OCLC.</td>
</tr>
</tbody>
</table>
Step 5a. Configure the indexes for OCLC WorldCat (if not already done)

Once Step 5 above is complete:

1. On the Catalog Configuration tab, click **Indexes - Configure**.
2. On the Phrase tab, select **Use = 4** and check **Manual**.
3. On the Title tab, select **Use = 4** and check **Manual**.
4. On the Author tab, select **Use = 1003**.
5. On the ISSN tab, select **Use = 8**.
6. On the ISBN tab, select **Use = 7**.
7. On the Control Num tab, select **Use = 1007**.
8. Click **OK**.

Step 6. Add WorldCat to Search Manual - Requesting

1. Login to Administer Settings.
2. Select the **Application Settings** tab.
3. Open the **Pre-processing** section.
4. Open the **Search Manual** section.
6. Click **Edit Extended Settings**.
7. Click **Catalogs**.
8. From the Catalogs dropdown, select **WorldCat**.
9. Click **Add**.

Caution: WorldCat should not be included in the list of catalogs for Search Auto and so should be at the bottom of the list for Search Manual - if necessary use the up/down arrows to move it to the bottom of the list.

**Step 7. Enable OCLC Number and OCLC Record Number as searchable fields in Query**

1. Login to Administer Settings.
2. Select the **Application Settings** tab.
3. Open the **Processing** section.
4. Open the **Login** section.
5. Highlight the instance of Login to be updated.
6. Click **Edit Extended Settings** to display Extended Login Settings.
7. Click **Query Request** to display Extended Query Requests Settings.
8. In the Exact Search Fields setting select:
   - **OCLC Number** and update the description (optional), then click **Add**.
   - **OCLC Record Number** and update the description (optional), then click **Add**.
     - These entries are added to the bottom of the list. Use the Up and Down arrows to adjust the order of the Exact Search fields as they display in Query Request.
9. Click **Ok** (lower right of the screen).
10. Close Login in order for the settings to take effect.
11. This process must be repeated for each instance of Login that requires the changes.

**Step 8. Configure the ILL Message Handler**

Customers using the Relais Hosted Service should contact [support](mailto:).  

**Step 9. Contact OCLC to arrange testing and to update your OCLC profile**

Send the following information to [ISOILL_Interop@oclc.org](mailto:ISOILL_Interop@oclc.org):

- Institution:
- Institution symbol:
- Role(s): Requestor or Supplier or both
- Software & Version:
- Domain: *
- Port: *
- Contact:
- Phone no.:
- Email address:
- Profile date:

Note: For Hosted Service customers contact [support](mailto:) for the domain and port information.

When a Renewal Request is received via OCLC it is displayed in Review Alerts.

Note: No Reply Yes/No button is displayed for OCLC Requests for Renewal. Use Loan Tracking to update the request as a Renewal indicating the new due date or select Renewal Refused. The information is sent back to OCLC.
