Why can't I see the Course Reserves link in WorldCat Discovery and why do I get an Access Denied error when using a bookmark?

Symptom
- You are trying to get to the Course Reserves in WorldCat Discovery, but the link does not appear. When you follow a bookmark to the URL, you get the error "Access Denied".

Applies to
- WorldCat Discovery

Resolution
This means that Course Reserves have been turned off in Service Configuration under WorldCat Discovery and WorldCat Local > User Interface Options > General Display Settings > Display Course Reserves. If you turn it back on, the link will reappear and your old data will still be present.
