  With Record Manager, you can bulk edit the 500 and 590 fields for up to 9,000 local bibliographic data records at a time.

  - About LBD bulk actions
  - Add a LBD field string
  - Add a LBD record to a work list
  - Add note field
  - Create a customized LBD script
  - Create a LBD record work list
  - Delete note field
  - Update note field by adding subfield
  - Update note field by deleting subfield
  - Update note field by replacing text string

- **Work with local bibliographic data**

  LBD is local information that complements the full bibliographic data in the WorldCat database. Enhance the bibliographic record for local use by adding local subject headings, uniform titles, or notes.

  - Add a LBD record
  - Delete LBD records
  - LBD fields
  - Reformat a LBD record
  - Search LBD fields
  - Update a LBD record
  - Validate a LBD record
