WorldCat Discovery release notes, June 2020

Release Date: June 29, 2020

Introduction

This release of WorldCat Discovery features 2 new enhancements, including:

- Moving the location of service configuration for French Boolean Operators
- Updated default settings for Search Expansion

Many of these enhancements are the direct result of your feedback.

Recommended actions

For this release, we recommend that you review the following enhancements and adjust your policies and workflows to train your staff accordingly.

Administrative actions

These items require immediate action or decisions.

New features and enhancements

French Boolean Operators

Configuration

The Service Configuration location for French Boolean Operators is moving from WorldCat.org/config>WorldCat Discovery and WorldCat Local>User Interface Settings>Search Language Options to a new location WorldCat.org/config>WorldCat Discovery and WorldCat Local>Search Settings>Search Defaults.

- The default for this setting will be off for all institutions that did not have this configured.
- For institutions that did have this enabled, it will be turned on and saved.
- The functionality in WorldCat Discovery has not changed and users will be able to use these French Boolean operators in their searches.

Update defaults for Search Expansion

Configuration

In the May release we updated the default settings for Search Expansion to authority data so every institution could take advantage of the new feature. Unfortunately, we did not share this in May’s release notes. We apologize if this caused an inconvenience for any institution that may have already chosen to turn it off. As a reminder, this is how use of authority data looks when turned on:

New content

This is a list of new databases added to WorldCat Discovery, WorldCat Local and WorldCat.org since our last update.

You can enable these databases as search options in the Licensed Content and Databases module of the OCLC Service Configuration site. Please remember that your library must have a valid subscription to these databases in order to enable them.

The complete list of databases is available at http://www.oclc.org/content/dam/support/discovery/contentlisttargetID.xlsx

Available in WorldCat Discovery and WorldCat.org

From Alexander Street:
