What is the Cataloging Evaluation role in WorldShare Admin?

Last updated: Tue, 23 Jun 2020 20:05:54 GMT

Symptom

- You're trying to assign a Cataloging role to a user, see the role Cataloging Evaluation and want to know when it should be assigned.

Applies to

- WorldShare Admin
- Record Manager

Resolution

The Cataloging Evaluation role was used when Record Manager was initially being rolled out so that users could log in to see and evaluate the tool. It is no longer used and shouldn't be assigned to anyone.

Additional information

There is more documentation on Cataloging roles.
