What does it mean when I get a message in WorldShare that my request is Expired?

Symptom

• You see a request as Unfilled and it is Expired and you want to know what happened

Applies to

• WorldShare ILL

Resolution

It meant that the Needed By Date has passed and the request then changes to an Unfilled Expired request. If you wish to request the item again, please follow the Unfilled requests section on the Process requests-Borrower documentation.
