I see the letters kf in the expanded search terms. What does kf mean?

Answer

The kf index is keyword + full text. This is the default search setting that can be found in the [Service configuration](https://help.oclc.org/Discovery_and_Reference/WorldCat_Discovery/Troubleshooting/I_see_the_letters_kf_in_the...) under:

**WorldCat Discovery and WorldCat Local > User Interface Options > General Display Settings**

You will see the kf index if the default setting matches that.
