Why am I getting an "Error Updating the Entry" error when updating Notifications?

Last updated: Thu, 23 Jul 2020 18:49:25 GMT

Symptom

• Error updating the entry

Applies to

• WorldShare Circulation
• WorldCat Service Configuration

Resolution

This is throwing because the text being entered is above the 500 character limit for the Start and End Text. This limit does include spaces, and the 500 character limit is independent between both the Start Text and End Text.
