Can a hidden field be added to our Include Menu web page to specify a Document Delivery process type?

**Symptom**
- Can a hidden field be added to our Include Menu web page to specify a Document Delivery process type?

**Applies to**
- ILLiad

**Resolution**
A hidden field can be added, but not to specify process type. Instead, create a routing rule to change items from Borrowing to Doc Del.

1. Add a hidden field on the request form such as ItemInfo1 ="Doc Del."
2. Set up the routing rule so that if Iteminfo1="Doc Del,"
3. Route the request to Awaiting Document Delivery Processing in the process type "Doc Del"

**Additional information**
See [Creating Custom Request Forms](https://help.oclc.org/Resource_Sharing/ILLiad/Troubleshooting/Can_a_hidden_field_be_added_to_our_Include_Menu_web_...for more information.
