Is there a way to get a LHOP report of the LHRs of a specific format?

Applies to

- Local Holdings Maintenance
- WorldShare Analytics

Answer

The LHOP (Local Holdings Offline Product) report includes all LHRs regardless of the format. You can break the list down using the text filter in Excel. For example, a text filter on the ISBN/ISSN column like this "ISSN*" (don’t use the quotes), would get you only serials.

Additional information

There is more information on the LHOP report.
