WorldCat Discovery release notes, September 2020

Last updated: Wed, 09 Sep 2020 20:29:41 GMT

Release Date: September 16, 2020

Introduction

This release of WorldCat Discovery provides a handful of bug fixes. Many of these enhancements are the direct result of your feedback.

Recommended actions

For this release, we recommend that you review the following checklists and complete the relevant tasks so that you can adjust your policies and workflows and train your staff. These checklists identify updates that we have determined as significant for most institutions. We encourage you to review all of the items in the release notes to determine whether there are other items that might require additional action or follow up by your institution.

Administrative actions

These items require immediate action or decisions.

When users are proxied into WorldCat Discovery, reCAPTCHA will no longer prevent email from sending

When a library user authenticates via their proxy into WorldCat Discovery, they will be able to send emails from within the WorldCat Discovery interface. Prior to this release, users who authenticated through a proxy were unable to send emails from within WorldCat Discovery

Html code fixed for the apostrophe ' & #39; in a library's name under Editions and Formats tab

When looking in the "Explore editions and formats" tab in a detailed item record, an institution’s name with an apostrophe, displays with the html code appearing instead of the apostrophe. This has been fixed with the September release.

Include Request ID with problem reports

When reporting an issue with WorldCat Discovery, it is extremely helpful to include the Request ID. The Request ID is found at the bottom of the screen on which the issue occurred. Including this information allows us to directly trace what happened on the request we are troubleshooting.
