How can I tell if a report has reached the 50,000 row limit?

Last updated: Thu, 22 Oct 2020 15:49:06 GMT

Symptom

• It is unclear whether a report has reached the 50,000 row limit.

Applies to

• WorldShare Reports
• WorldShare Report Designer

Resolution

The number of rows in a report can be found using the Export tool:

1. After running a report, select Export on the Main toolbar.
2. Select Data.
3. If the number of lines is shown as 50,000 the data limit has been reached.
4. Click Cancel.
