How can a library make its holdings visible on WorldCat.org to people who reach the site directly or from partner sites such as Google Books, Goodreads, or Wikipedia?

Last updated: Tue, 27 Oct 2020 13:25:17 GMT

Applies to

• WorldCat.org

Answer

Libraries whose collections are represented in WorldCat can make their resources visible on WorldCat.org with the following:

1. In the U.S. and Canada, maintain a FirstSearch/WorldCat Discovery subscription. This subscription gives you the use of both the FirstSearch and WorldCat Discovery services, along with the benefit of visibility on WorldCat.org.
2. Outside North America, maintain a WorldCat.org subscription for visibility on WorldCat.org.
