How many WorldCat records are searched through WorldCat.org?

Last updated: Tue, 27 Oct 2020 13:40:14 GMT

Applies to

• WorldCat.org

Answer

All records in the WorldCat database are searched on WorldCat.org. However, holdings display only for libraries that maintain subscriptions to both Cataloging and Metadata and FirstSearch/WorldCat Discovery.

If your library contributes holdings to WorldCat but does not have visibility on WorldCat.org, contact your OCLC representative for information about obtaining a FirstSearch/WorldCat Discovery subscription.
