Add item to order

Add item from WorldCat

Use Discover Items

In Acquisitions use Discover Items to search through WorldCat for print or other physical format monographs and serials. See WorldCat.

You will need to find a record in WorldCat for both ordering and for adding holdings for items you have in hand, or for items that you have acquired outside of the WMS Ordering process (e.g. gifts).

1. Choose the search Scope to limit your search. See Basic search.
2. Select a search Index. See Basic search.

Check your library’s holdings before ordering

On the search results screen, the middle column indicates whether your library holds the item, as below.

- Held by my library: Your library holds the item.
- Not Held by my library: Your library does not hold the item
- Libraries own this item: The number of libraries that own the item

See details about an item

To see detailed information about an item, place your cursor over the information icon (i) in the search results. A window appears listing information, which varies, depending on the type of item:

#### Processing Type

Select a processing type:

- **Electronic Product** - A nonphysical, electronic title. May be a single item or multi-part item. May be issued in parts indefinitely.
- **Monograph** - Monographs where only one barcode is applied.
- **Serial** - Print serials and multi-part monographs where multiple barcodes are applied.

3. *(Optional)* Apply a template (available for orders only). From the Apply Order Template list, click the template you want to apply.

4. To add the item to the order or plan, in the Action column (at right), click **Add**:
   - The number in the Items column increases.
   - Items added to plans can also be received immediately. A message will appear confirming that the item was added. Click **Receive Item** to begin the receiving process. See Receive Monographs or Receive serials and e-products for more information.

5. Click **Close**.

### Add a monographic series to an existing order

Note: You cannot currently search Discover Collections for a monographic series.

1. From the search results, find the monographic series you want to order and click **Add to > Order**.

2. From the Add Item to Order dialog window, select the following settings:
   - Acquisition Type - **Subscription**
   - Processing Type - **Monographic Series**

3. *(Optional)* Add any additional information about the monographic series (ISBN, Period, Start Date, and/or End Date) or apply a template (available for orders only). From the Apply Order Template list, click the template you want to apply.

4. Find the existing purchase order to which you want to add the monographic series.

5. To add the monographic series to the order, in the Action column (at right), click **Add**. The number in the Items column increases.

6. *(Optional)* Click the **Order Name** to enter details for the order item (e.g., Fund, Location, Price, etc.).

7. Click **Close**.

### Add a monographic series to a new order

Note: You cannot currently search Discover Collections for a monographic series.

1. From the search results, find the monographic series you want to order and click **Add to > Order**.

2. From the Add Item to Order dialog window, select the following settings:
3. **(Optional)** Add any additional information about the monographic series (ISBN, Period, Start Date, and/or End Date) or apply a template (available for orders only). From the Apply Order Template list, click the template you want to apply.

4. Click **New Order**.
5. In the Add New Order dialog, select **Purchase Order** for Order Type and complete the other fields as needed.

Add item from WorldCat knowledge base

Use Discover Collections to search for e-products in the WorldCat knowledge base. See WorldCat knowledge base.

1. Choose the search Scope to limit your search. See Search for collections, providers or titles.
2. Enter you search terms. The My Selected Collections check box is automatically selected. If you want to search all of the WorldCat knowledge base, deselect the My Selected Collections check box.
3. Click Search or press <Enter>.

Check your library's holdings before ordering

On the search results screen, the middle column indicates whether your library holds the item, as below.

- Held by my library: Your library holds the item.
- Not Held by my library: Your library does not hold the item
- Libraries own this item: The number of libraries that own the item

**Add item not in WorldCat or the WorldCat knowledge base**

If you have searched WorldCat and WorldCat knowledge base, and no record matches the item you are ordering, you can create a brief (Encoding Level 3) record in WorldCat.

- Create a record in Record Manager and use this to create the order item and add it to an order in Acquisitions. See [WorldShare Record Manager: Bibliographic records](https://help.oclc.org/Library_Management/WorldShare_Acquisitions/Bibliographic_Record_Manager).
- Create a custom Collection and/or Title in WorldCat knowledge base. See [WorldShare Collection Manager: Choose your Collection Manager workflow](https://help.oclc.org/Library_Management/WorldShare_Acquisitions/Collection_Manager). Note: the custom collection will have to be marked as Customizable in order to add a title from the collection to an order.
- [Create a local resource](https://help.oclc.org/Library_Management/WorldShare_Acquisitions/Order/Create_local_resource) and [add it to an order or purchase request](https://help.oclc.org/Library_Management/WorldShare_Acquisitions/Order/Add_to_order).

<td>The ISBN/ISSN WMS sends to the vendor.</td>
</tr>
</tbody>
</table>

3. From the Apply Order Template list, click the template you want to apply.
4. Check and edit the details in Item Details (Template: [name]).
5. To add the item to the order or plan, in the Action column (at right), click Add:
6. Click Close.
