Open the online Help

Discover how to open the online Help for Connexion client.

There are several ways to open online Help:

- With Connexion client open, navigate to Help > Client Help, click the Help button ( ), or press <F1> to open the Connexion client online Help.
- To get a MARC field description, perform one of the following actions:
  - With the cursor in a field in an open record or workform, navigate to Help > MARC Field Help or press <Shift><F1>.
  - Right-click in a field and click MARC Field Help on the shortcut menu.

The appropriate description of the field opens in Bibliographic Formats and Standards or in Authorities: Formats and indexes. See MARC field Help for more details.
