What changes do I need to make for the auto-deflect feature to deflect requests based on my library's availability?

Last updated: Sat, 14 Aug 2021 02:47:07 GMT

Applies to
- WorldShare ILL
- Tipasa

Answer

WMS libraries and libraries that subscribe to WorldCat Discovery Premium are already configured for Real-time availability.

As part of their Tipasa or WorldShare ILL subscription, OCLC resource sharing libraries can request setup for Real-time availability. OCLC will do the configuration for real-time availability. However, you first need to supply some information about your library by completing this real-time availability questionnaire. For more information, contact oclcresourcesharing@oclc.org.
