How do we setup OPAC availability in Tipasa?

Last updated: Thu, 08 Jul 2021 18:54:12 GMT

Applies to

- Tipasa

Answer

This functionality is currently only available for WMS libraries, libraries using Alma, and libraries using Sierra.

- If you are a WMS library, you can enable this functionality from the Advanced Workflows section of the Tipasa OCLC Service Configuration
- If you are an Alma or Sierra library, please complete this questionnaire.

Additional information

If you are looking for Tipasa to read your item availability and use that in determining when lending requests will be deflected or not, please complete the smart fulfillment real-time availability questionnaire. For more information, contact oclcresourcesharing@oclc.org.
