How can I automatically update Docline Scripts in ILLiad?

Last updated: Wed, 24 Mar 2021 14:08:03 GMT

Applies to

- ILLiad

Answer

The two keys in Customization Manager are supposed to be default, but if they don't exist, they can be manually added by following the [Docline Automatic Update](https://help.oclc.org/Resource_Sharing/ILLiad/Troubleshooting/How_can_I_automatically_update_Docline_Scripts...) documentation.
