WorldCat Discovery

Last updated: Tue, 27 Feb 2018 16:47:04 GMT

WorldCat Discovery is a cloud-based application that helps people easily find resources available at their library and in libraries worldwide through a single search. Library users and staff use their WorldCat Discovery instance to search the WorldCat database, to identify materials they need, and to see where they are available.

1. See Introduction to WorldCat Discovery to get started.
2. See how to Configure WorldCat Discovery features and Search in WorldCat Discovery.
3. Find live and recorded Training.

- Get started
  - Available collections and databases
  - Create staff accounts
  - Definitions
  - Introduction to WorldCat Discovery
  - Staff features
  - WorldCat Discovery account roles

- Configure WorldCat Discovery features
  - Configuration for WorldCat Local libraries moving to WorldCat Discovery
  - Configure content and staff features
  - Configure patron facing features
  - Proxy settings checklist

- Display local data

Troubleshooting

Find frequently asked questions (FAQ) and troubleshooting steps (Troubleshooting).

- Are links from WorldCat Local to external databases COUNTER 4 compliant?
- Articles from a journal in a database I subscribe to do not appear as results in Discovery when I search for them
- The issues are appearing out of order on a journal in WorldCat Discovery even though the order in WorldShare Circulation is correct.
- A title in a knowledge base collection with print periodicals is not showing availability in the A-Z list
- Can a user email or print a list of all results?
- How can I avoid getting article citation records in my WorldCat search results?
- How can I correct information in a WorldCat record?
- How can I get my book images to appear in the catalog summary display?
- How can I keep the hold button from appearing in Discovery for a shelving location?
- How can I remove a branch library from my Discovery search page?
- How can I resolve an IP Range Overlapped error, and find the institution who owns the IP address?
- How does Google Analytics track IP addresses?
- How does the Service Configuration Metasearch Content Module work with WorldCat knowledge base collections to display our library's database content in WorldCat Discovery?
- How do I keep the place hold button from displaying for items in specific shelving locations?
- I'm an author, how do I get my book published in WorldCat.org?
- In the holdings summary of a journal, why does one listing have the status as not available and the other as available?
- Is there a way in Service Config to have a Recall button placed without a Hold button?
- Items in a location that are unavailable are showing a green check mark
- I executed a search and was told HTTP Status 403 - The number of requests exceeded the 24 hour quota
- Links to open access content are still showing despite being de-selected in Service Configuration
- Our libraries share a proxy service how do I add the IP address to both sites?
- Patrons are getting a 404 error when they try to go to pages in Camio
- Request button isn't displaying for articles
- The cover art is incorrect for an item in WorldCat
- The same record is displaying twice in Discovery
- Under Editions and Formats, I found a record that shouldn't be there.
- We have multiple entries for a title in WorldCat and tried to delete the duplicate holdings in Connexion, but could not find them there
- Where can I create a new shelving location?
- Where can I find my CAMIO statistics?
Why are full-text links showing in WorldCat Discovery when there is an embargo indicated in Collection Manager?

- Why does WorldCat Discovery show that we do not have v.1 and v.2, followed by an indication that we do have those items available?
- Why is my item record showing a "Circulation information is unavailable" availability error?
- Why is there no place hold button when an item is checked out?
- Why is this item showing as an ebook in WorldCat Discovery?
- Why is WorldCat.org linking to an item which has the same title but a different format?
