What does it mean for titles to be in "Unknown Classification"?

Applies to

- WorldShare Collection Evaluation

Answer

The classifications are based on the categories for the OCLC Conspectus. For a title to be in "Unknown Classification", there would have to be no Dewey, LC, or NLM call number that is included in the Conspectus ranges. [This classification table](https://help.oclc.org/Library_Management/WorldShare_Collection_Evaluation/Troubleshooting/What_does_it_mean_for_titles_to_be_in%20%22Unknown_Classification%22) for the Conspectus lays out which call numbers are in the various categories.
