Do items in temporary locations appear in Collection Evaluation?

Last updated: Fri, 11 Mar 2022 14:19:58 GMT

Applies to

- WorldShare Collection Evaluation

Answer

The Location Limit will only display locations that have items in permanent locations attached to them. Items with a permanent location that also have a temporary location will appear in their permanent location in Collection Evaluation.

Items in a temporary location that do not have an LHR or Bibliographic record will not display in Collection Evaluation. In order to look at temporary items, please see the Circulation Item Inventories Report.

Additional information

For more information see Filter using the Location limit and the Location Location (852) field.
