Why do I have N/A listed as a permanent location on my Monthly Circulation Statistics Report

Last updated: Fri, 11 Jun 2021 16:23:20 GMT

Applies to

- WorldShare ILL
- Tipasa
- WMS Circulation

Answer

WorldShare ILL or Tipasa integration with WMS never sets a shelving location on temporary items created by the integration. This is why you see all the shelving locations of N/A on the Monthly Circulation Statistics Report. If a shelving location is appearing on a temporary ILL item, that implies that library staff added that shelving location to the item at some point.
