A search in WorldCat Discovery results in an error stating "There was an error while displaying your record."

Last updated: Fri, 16 Dec 2022 16:37:58 GMT

Symptom

- When performing a search in WorldCat Discovery the results give an error stating "There was an error while displaying your record."

Applies to

- WorldCat Discovery

Resolution

Please contact OCLC Support with the following:

- Replication steps to perform the search
- The URL of the end search that resulted in the error

More information

This error is known to happen when a discrete database has not been selected to be searched in WorldCat Discovery.

Which discrete databases should be added to our Discovery search?
