How do I make a campus library collection or shelving location unavailable

Last updated: Fri, 02 Jul 2021 17:13:56 GMT

Applies to

• WMS Circulation

Answer

Here are a few things your library can do to make a collection unavailable in the Service Configuration.

• Adjust the OPAC Status mapping to make items shelved in X location (e.g., Rare Book Room) appear unavailable in WorldCat Discovery and suppress fulfillment options.
• Add a Shelving Location Message to WorldCat Discovery to explain that the collection cannot be browsed; requests can't be placed, etc.
• Make items ineligible for hold requests using Location Policy's 'Fulfil Holds For' setting and/or ensuring that no pickup options are found in the Hold Pickup Locations Map.
