OCLC Service Configuration is an administrative interface. Any user will be able to use WorldCat registry settings to configure institution information. You will also see setting for the OCLC products and services to which you subscribe.

- **Get started**

  OCLC® Service Configuration uses WorldCat Services account information to configure institution-related information. For OCLC members, it also allows configuration of OCLC products and services.

  - Add an institution to configure
  - Create a WorldCat Account
  - Sign in to OCLC Service Configuration
  - Verify or change your account information

- **WorldCat Discovery and WorldCat Local**

  Administrative settings for WorldCat Discovery are in OCLC Service Configuration; however, only specific settings are needed to configure WorldCat Discovery. Libraries will not use the FirstSearch administrative interface to manage WorldCat Discovery.

  - Search Settings
  - User Interface Options
  - Relevancy and Scoping
  - Full Text OpenURL Resolvers (outgoing requests)
  - Place Hold/Request Buttons
  - OPAC Statuses, Locations and Circulation Policies
  - Holding Codes & Shelving Location Messages
  - Local and Enhanced Content
  - Full Text and Open Access Links
  - ILS Support and Maintenance
  - Google Analytics (WorldCat Discovery only)
  - A - Z List and OCLC Link Resolver
  - Search Box Generator

- **Third-Party Integrations**

  OCLC Service Configuration uses WorldCat Services account information to configure institution-related information. For OCLC members, it also allows configuration of OCLC products and services.
Third-party services are enabled and configured in the Third-Party Integrations menu.

- BrowZine
- StackMap
- Talis Aspire Reading Lists

**Metasearch Content**

No image available

Metasearch Content configuration allows you to select and organize databases that your users can search.

- Default Databases and Licensed Content

**WMS Circulation**

No image available

Administrative settings for WorldShare Circulation are in OCLC Service Configuration. In OCLC Service Configuration > WMS Circulation, you can set your circulation policies.

**WorldCat registry**

No image available

Configure and maintain a profile that defines your institutional identity, to enable all web users access to your institution's services and set relevant data for other OCLC products.

**IP Addresses**

No image available

In OCLC Service Configuration, manage your institution's IP address ranges and attributes for OCLC products and services.

- Manage IP Addresses
- IP Addresses History

**WorldShare Interlibrary Loan**

No image available

Administrative settings for WorldShare Interlibrary Loan and Tipasa are maintained in OCLC Service Configuration. In Service Configuration, you can set your interlibrary loan options, print settings, borrower and lender constant data, custom holdings groups, automations, and purchase options.

**Web Service Keys**

No image available

Web Service Keys (WSKeys) are now requested and managed at the OCLC Developer Network. For information on requesting a WSKey, see Authentication and Authorization.

• **WMS Institution**

  No image available

  WMS Institution configuration allows you to set up your WMS library's institution borrower categories, patron custom data and branch opening hours override settings.
  
  ◦ Institution Borrower Categories
  ◦ Branch Opening Hours Override Settings
  ◦ Patron Custom Data

• **OpenURL Resolvers**

  No image available

  Use these configuration settings to list link resolvers that deliver appropriate electronic resources to a Web user.
  
  ◦ Manage Resolvers
