If I want the Due Date that shows up in a Transaction to be a few days before the lender wants the item, how do I do that?

Last updated: Wed, 22 Sep 2021 20:26:36 GMT

Applies to

• ILLiad

Answer

You want ILLiad to automatically change the Due Date to a few days earlier than when the lending library's due date, you need to update the BorrowingDueDateDays in the Customization Manager with the number to subtract from the Due Date the lender shows and that number will show up as the Due Date in the ILLiad Transaction. It will also be what will show up in Notifications and printouts.

Additional information

Information on the ATLAS site can be found in the Check-In section under Borrowing in the ILLiad Customization Keys page.
