How to restrict items from a OAI-PMH harvest

Symptom

• Ways to restrict items from a harvest of OAI-PMH

 Applies to

• CONTENTdm

Resolution

There are two ways to restrict items from a OAI-PMH harvest.

1. Remove the items from the collection and place them in a collection that is not being harvested.

2. Use the ability to restrict individual items in that collection. Make sure you restrict the image as well as the metadata.
