Why do loans show up on the Copyright Compliance Payment Report?

Last updated: Tue, 22 Feb 2022 22:55:35 GMT

Applies to

• WorldShare ILL
• Tipasa
• OCLC Usage Statistics

Answer

This report will show any borrowing request in the given month that has at least one data element in at least 1 of the 5 “article” fields. It was created as a way to help libraries to try and manage their copyright. It was not intended to be authoritative.

The 5 fields are:

• Year
• Volume
• Issue
• Pages
• Article Title

Additional information

As a Tipasa library, the Copyright Management tool we provide in the UI should be used to manage copyright.
