Why is my Finding Aid item showing only blanks after the first page?

Last updated: Tue, 01 Mar 2022 19:27:08 GMT

---

**Symptom**

- You've added a finding aid to your CONTENTdm collection and you see multiple pages for it in the web site, but after clicking past the first page, they are all empty.

**Applies to**

- CONTENTdm

**Resolution**

This happens when the content of your Finding aid goes over the 128KB size limit. Either cut down the content or break it into separate files and you should be able to get it to come through.

**Additional information**

There is more on working with [Finding aids](https://help.oclc.org/Metadata_Services/CONTENTdm/Troubleshooting/Why_is_my_Finding_Aid_item_showing_only_blanks_after_the_first_page/).
