Is an IP address needed or configured to access Connexion client?

Last updated: Fri, 14 Oct 2022 14:48:15 GMT

Symptom

• You are wondering if you need to configure Connexion client for IP address changes if you had an IP change at your library

Applies to

• Connexion client 2.63, 3.x

Resolution

No IPs are needed to access Connexion client. However, if you had a change to your ILS IP address or URL, you would need to change your Gateway export destination settings.
