<th>Universe</th>
<th>Appears in</th>
</tr>
</thead>
<tbody>
<tr>
<td>Invoice Day Name</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Description**
The day of the week (e.g., Wednesday) a vendor issued an invoice to the institution.

<table>
<thead>
<tr>
<th>Type</th>
<th>Dimension</th>
<th>Universe</th>
<th>Appears in</th>
</tr>
</thead>
<tbody>
<tr>
<td>Invoice Exchange Rate</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Description**
Number (up to six decimal places) used to calculate the value of one currency for the purpose of conversion to another when the invoice currency differs from the currency of the institution.

<table>
<thead>
<tr>
<th>Type</th>
<th>Dimension</th>
<th>Universe</th>
<th>Appears in</th>
</tr>
</thead>
<tbody>
<tr>
<td>Invoice Item Accrual Start Date</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Description**
The start date used by the system when calculating how much of the payment price is to be expended in a particular budget period for accrual mode items. This date is only different from the Subscription Start Date if the user changes the start date of an order item when there are invoice items that are paid, ready to pay, or awaiting payment.
Invoice Item Accrual End Date

The end date used by the system when calculating how much of the payment price is to be expended in a particular budget period for accrual mode items. This date is only different from the Subscription End Date if the user changes the end date of an order item when there are invoice items that are paid, ready to pay, or awaiting payment.

Invoice Item Created Date

Date invoice item was created.

Invoice Item Created Day

The enumerated day (1-31) of the month an invoice item was created.
### Invoice Item Created Day Name

</table>

### Invoice Item Custom Field Label

<table>
<thead>
<tr>
<th>Description</th>
<th>The label used to describe a library-defined field of an acquisitions invoice item.</th>
</tr>
</thead>
</table>

#### Notes

- There are 20 Invoice Item Custom Field Labels available to your institution.
- See [Custom fields](https://help.oclc.org/Library_Management/WorldShare_Reports/Report_objects/Report_objects_A_to_Z/Report_objects_A_to_Z) for more details on the usage of custom fields in Acquisitions.
- Each Field Name corresponds with an Analytics Field ID. The Field Name will appear in the Item Custom Field Label for the corresponding Analytics Field ID.

In the image above, the value will be in Invoice Item Custom Field Label 2.

### Invoice Item Prepaid Amount

**Description**
The monetary amount an institution has spent on an invoice item that will be expended on a fund in future budget period(s) upon closing of the budget.

### Invoice Item Product Type

**Description**
Category representing the type of product being invoiced (i.e., Bibliographic or Non-Bibliographic).

### Invoice Item Quantity

**Description**
Integer representing the number of units or copies of an invoice item.
### Invoice Item Service Charges (Per Unit)

<table>
<thead>
<tr>
<th>Description</th>
<th>Monetary amount indicating the service charges to be paid to a vendor for a single unit of an Item on an invoice. Entered by the user or calculated by dividing the invoice item services charge amount (item level) by the invoice item quantity.</th>

<tr>
<td>Type</td>
<td>Dimension</td>
</tr>
<tr>
<td>Universe</td>
<td>Circulation Events</td>
</tr>
<tr>
<td>Appears in</td>
<td>Circulation Events Detail Report</td>
</tr>
</tbody>
</table>
### Item Call Number Classification

**Description**

From 852 $h$, part of the call number that defines the subject or topic of an item according to the shelving scheme, e.g., PS3545.E6 for Library of Congress Classification or 021.138 for Dewey Decimal Classification.

Note: Data will appear as "N/A" when the circulation item does not have an associated LHR item (e.g., a temporary item (Item Type = TEMPORARY or CIRC_MANAGED) or a withdrawn item.

<table>
<thead>
<tr>
<th>Type</th>
<th>Dimension</th>
</tr>
</thead>
<tbody>
<tr>
<td>Universe</td>
<td><a href="#">Circulation Events</a></td>
</tr>
<tr>
<td>Appears in</td>
<td></td>
</tr>
</tbody>
</table>

### Item Call Number Cutter

**Description**

From 852 $i$, item part designation of the call number that allows the institution to distinguish between multiple items with the same classification number on the shelf.

Note: Data will appear as "N/A" when the circulation item does not have an associated LHR item (e.g., a temporary item (Item Type = TEMPORARY or CIRC_MANAGED) or a withdrawn item.

<table>
<thead>
<tr>
<th>Type</th>
<th>Dimension</th>
</tr>
</thead>
<tbody>
<tr>
<td>Universe</td>
<td><a href="#">Circulation Events</a></td>
</tr>
<tr>
<td>Appears in</td>
<td></td>
</tr>
</tbody>
</table>

### Item Call Number Main Class

**Description**

Derived from 852 $h$, the primary subject or topic of an item according to the shelving scheme, e.g., P for Library of Congress Classification or 200 for Dewey.
Decimal Classification.

Note: Data will appear as "N/A" when the circulation item does not have an associated LHR item (e.g., a temporary item (Item Type = TEMPORARY or CIRC_MANAGED) or a withdrawn item.

<table>
<thead>
<tr>
<th>Type</th>
<th>Dimension</th>
</tr>
</thead>
<tbody>
<tr>
<td>Universe</td>
<td>Circulation Events</td>
</tr>
<tr>
<td>Appears in</td>
<td></td>
</tr>
</tbody>
</table>

### Item Call Number Prefix

From 852 $k, value that defines the first part of the call number. Often used to designate the type of the material (e.g., reference material).

**Description**

Note: Data will appear as "N/A" when the circulation item does not have an associated LHR item (e.g., a temporary item (Item Type = TEMPORARY or CIRC_MANAGED) or a withdrawn item.

<table>
<thead>
<tr>
<th>Type</th>
<th>Dimension</th>
</tr>
</thead>
<tbody>
<tr>
<td>Universe</td>
<td>Circulation Events</td>
</tr>
<tr>
<td>Appears in</td>
<td></td>
</tr>
</tbody>
</table>

### Item Call Number Subclass

Derived from 852 $h, the secondary subject or topic of an item according to the shelving scheme, e.g., PS from Library of Congress Classification or 020 from Dewey Decimal Classification.

**Description**

Note: Data will appear as "N/A" when the circulation item does not have an associated LHR item (e.g., a temporary item (Item Type = TEMPORARY or CIRC_MANAGED) or a withdrawn item.
<table>
<thead>
<tr>
<th>Type</th>
<th>Dimension</th>
</tr>
</thead>
<tbody>
<tr>
<td>Universe</td>
<td>Circulation Events</td>
</tr>
<tr>
<td>Appears in</td>
<td></td>
</tr>
</tbody>
</table>

### Item Call Number Suffix

**Description**

From 852 $m, value to distinguish items with the same classification number and cutter on the shelf. Often a date or copy number.

Note: Data will appear as "N/A" when the circulation item does not have an associated LHR item (e.g., a temporary item (Item Type = TEMPORARY or CIRC_MANAGED) or a withdrawn item.

</tbody>
</table>
The number of items held by an institution.

Item Holdings Quantity is derived from your institution's local holdings records (LHRs). For more information about LHRs, see OCLC Local Holdings Format and Standards.

The following rules are used to determine Item Holdings Quantity:

**Single-Part items (1 item counted)**

- LHR includes the basic, required fields only (leader, 007, 008, and a single 852).
- LHR includes the required fields in addition to one or more unlinked 866 field or 876 field without a value of ‡p.

**Multipart & serial items (2+ items counted. Assumes all required fields are present)**

- If an LHR includes an 863-865 field that is linked to an 853-855 field (via linking number ‡8), then each linked 863-865 field is counted as an item.
- If an LHR includes an 863-865 field that is linked to an 866-868 field (via linking number in ‡8) and/or to an 876-878 field (via ‡8), then each such occurrence of 863-865 is counted as an item.
- If an LHR includes an 866-868 field with a ‡8 of zero (0) and there are no 853-855, 863-865, or 876-878 fields, then each such occurrence of 866-868 is counted as an item.
- If an LHR includes an 866-868 field with a ‡8 of zero (0) that is linked to 876-878 field (via ‡a to ‡3 respectively) but without 853-855 or 863-865 fields, then each linked 876-878 field is counted as an item.
- If an LHR includes an 866-868 field with a ‡8 of zero (0), includes one or more unlinked 876-878 fields with a value of ‡p, but does not include 853-855 or 863-865 fields, then each linked 866-868 and 876-878 field is counted as an item.
- If an LHR includes an unlinked 876-878 field with a value of ‡p, then that 876-878 field is counted as an item.

### Item Long Overdue Policy Date Day

**Description**
The enumerated day (1-31) of the month an item will be considered long overdue if it is retained by the patron past its due date. This day is set according to library policy when the item is checked out to the patron and is updated whenever the item is renewed or otherwise has its loan period extended.

### Item Type

The category that identifies how an item is classified within WorldShare Management Services. Values include:

- VOLUME - regular items that are represented by local holdings records in WorldCat
- CIRC_MANAGED (TEMPORARY) - temporary items
- FREE_TEXT - items that were created as a result of a free-text hold request from the patron interface

### Item Variant OCLC Numbers

A set of OCLC numbers that represent alternative bibliographic records that are eligible to fulfill a hold request, e.g., bibliographic records that describe the same edition of a work.
### Items Checked In
