Why does the F11 key not work in Connexion client on a Macbook?

Last updated: Mon, 11 Apr 2022 21:29:58 GMT

Symptom

- F11 shortcut key does not allow you to control a single authority heading

Applies to

- Connexion client

Resolution

If you are using a Macbook please deselect the F11 key from the Mission Control settings

1. Go to System Preferences
2. Keyboard
3. Shortcuts
4. Mission Control
5. Deselect F11
6. Test F11 in Connexion client

Additional information

Control a single authority heading

Work with keystroke shortcuts
