Where do I need to update Talis IP address?

Last updated: Wed, 15 Jun 2022 14:09:34 GMT

Symptom

- Talis has asked me to amend the IP address.

Applies to

- WorldCat Discovery

Resolution

WorldCat Discovery integrates with Talis Reading Lists by calling Talis' Item linking API. Because of this, IP address information is not needed for the integration to work. You can disregard notification from Talis that they have updated their IP addresses since our system does not require them.
