Changing Required Fields in 9.2

Last updated: Fri, 09 Sep 2022 15:30:05 GMT

Applies to

- ILLiad 9.2

Answer

You can now control how fields are required in the HTML of a page. [Changing Required Fields](https://help.oclc.org/Resource_Sharing/ILLiad/Troubleshooting/Changing_Required_Fields_in_9.2)

Additional information

Here are examples of what the old field looks like and what you can do to make it required if you are on 9.2 of ILLiad.

Change this:

```html
<div class="form-group col-md-9">
  <label for="PhotoJournalTitle">
    <span class="field">
      <span class="<#ERROR name='ERRORPhotoJournalTitle'>">
        Title (Journal, Conference Proceedings, Anthology)
      </span>
      <span class="req">(required)</span>
    </span>
  </label>
  <br>
  <span class="small-notes">
    Please do not abbreviate unless your
  </span>
</div>
```

To this:

```html
<div class="form-group col-md-9">
  <label for="PhotoJournalTitle">
    <span class="field">
      <span class="<#ERROR name='ERRORPhotoJournalTitle'>">
        Title (Journal, Conference Proceedings, Anthology)
      </span>
    </span>
  </label>
  <br>
  <span class="small-notes">
    Please do not abbreviate unless
  </span>
</div>
```
citation is abbreviated
</span>
</span>
<br>
</label>
<input type="text"
class="form-control"
name="PhotoJournalTitle"
id="PhotoJournalTitle"
value="" required>
</div>

your citation is abbreviated
</span>
</span>
<br>
</label>
<input type="text"
class="form-control"
name="PhotoJournalTitle"
id="PhotoJournalTitle"
value="">
</div>
