If we want to run SAML on a hosted ILLiad server, can our other sites on that server keep their authentication setup?

Last updated: Fri, 16 Dec 2022 16:02:14 GMT

Applies to

- ILLiad

Answer

ILLiad servers hosted by OCLC can use SAML as well as one other type of authentication if an institution has multiple sites. Interested sites should contact OCLC Support to begin the process.

Additional information

While this is possible, each setup is unique. OCLC Support will work with Atlas to give you a better idea of what is necessary for your site's setup.
