Who is eligible to subscribe to CatExpress?

Last updated: Fri, 12 Jan 2018 19:51:28 GMT

CatExpress subscriptions are available for purchase by individual libraries and groups of libraries as follows: K-12 libraries and special, federal, and public libraries that serve a population of 20,000 or fewer users, as well as academic and community college libraries with a staff size of 2,500 or fewer full-time equivalent (FTE). Subscription levels are available between 250 and 7,000 titles per year per library. The 7,000 title limit applies to libraries subscribing as an individual or as a member of a group. If your library needs to create original cataloging records or it does not meet the subscription criteria for CatExpress, a full cataloging subscription is recommended.
