I am getting a message "This web property is
not accessible via this address" when using
Worldcat.org with EZproxy

Last updated: Thu, 20 Oct 2022 20:55:54 GMT

Symptom

• You are using Worldcat.org with EZproxy and getting an error message saying This web Property is not accessible via this address

Applies to

• EZproxy

Resolution

Please follow these steps to make sure we can fix the issue:

1. Make sure the stanza for WorldCat.org is:

   Title WorldCat.org (updated 20181128)
   URL https://www.worldcat.org/
   HJ https://worldcat.org
   HJ www.worldcat.org
   HJ worldcat.org
   DJ worldcat.org

2. Exact error with screenshots of the error.
3. Client IP address.
4. Ray-ID (this is a piece of information sometimes present on the CloudFlare error itself).
5. How to reproduce the issue along with test creds (send the test creds through onetimesecret.com link).
6. Timestamp.
7. URL (of the error).

Please send the information to OCLC Support.

We will work on resolving the issue for you.
