After I set a WorldCat holding in Record Manager, when can it be viewed in other applications?

If you use Record Manager to add a new record to WorldCat or replaced an existing record on WorldCat, the holdings are immediately available in Connexion, FirstSearch, WorldCat Discovery, and WorldCat.org.

If you don't see the holdings update in the result list, click the **Refresh** button at the top of the list next to the result count. If the problem persists, contact [OCLC Support](https://help.oclc.org/Metadata_Services/WorldShare_Record_Manager/Troubleshooting/After_I_set_a_WorldCat_holding_in_Record_Manager_when_can_it_be_viewed_in_other_applications) and provide them with the OCLC number.
