In order to provide access to resources that use https, your EZproxy server must be configured with an SSL certificate.

This database stanza requires EZproxy 3.2a GA (2005-03-28) or later.

```plaintext
Title Atomic Learning
URL -form=post atomiclearning https://secure.atomiclearning.com/movies/
FormVariable username= yourusername
FormVariable password= yourpassword
```

In this definition, substitute your institution's username and password for `yourusername` and `yourpassword`. To access this definition, you will need to construct a URL similar to:

```plaintext
http://ezproxy.yourlib.org:2048/login/atomiclearning
```

replacing `ezproxy.yourlib.org:2048` with your own EZproxy server hostname and port.
